

**REACH – Manufacturer’s Declaration**  
 REACH-Regulation (EC) No 1907/2006 of 18th December 2006  
 SVHC substances according candidate list of 7th November 2024

As a manufacturer of articles, SUCO is a "downstream user" and "supplier of an article" in the sense of REACH, which results in various obligations to pass on information along the supply chain.

In our own interest and to ensure a high level of product safety and to comply with the information requirements on substances of very high concern (so-called "candidate list substances" or SVHC substances), we are permanently monitoring the implementation of REACH and the resulting requirements.

You purchase products from us. These products are classified as articles in the REACH Regulation. Art. 33 para. 1 REACH obliges the supplier to notify articles for safe use that contain SVHC substances identified in accordance with Art. 59 para. 1 in a concentration of more than 0.1 mass percent (w/w) and meet the criteria of Art. 57 a-f, but at least to indicate the name of the substance concerned.

SUCO hereby confirms that the product group „pressure monitoring“ has been tested for chemicals listed in the candidate list (SVHC substances) of the ECHA of 07.11.2024 > 0.1 % w/w by our qualified personnel in accordance with the provisions of the respective current REACH regulation. This declaration is made to the best of our knowledge and belief, based on the information we have received from our component suppliers and raw material suppliers.

SVHC	CAS-No.	EC-No.	Amount of SVHC in single part (% w/w)
Lead	7439-92-1	231-100-4	>0.1%
<ul style="list-style-type: none"> <li>➤ In the switch bodies of all <u>mechanical pressure switches</u></li> <li>➤ For accessory articles made of steel, aluminium and brass and socket devices</li> </ul>			
6,6'-Di-tert-butyl-2,2'-methylendi-p-cresol	119-47-1	204-327-1	>0.1%
<ul style="list-style-type: none"> <li>➤ For all <u>piston pressure switches</u> with <u>EPDM sealing</u></li> <li>➤ In the sealing system set screw of all products of the <u>series 0240-X; 0241-X; 0340-X and 0341-X</u></li> </ul>			
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol	79-94-7	201-236-9	>0.1%
<ul style="list-style-type: none"> <li>➤ In circuit board of all products of the <u>series 0263-X; 0266-X; 0269-X</u> (with integrated circuit board) and <u>electronic products</u></li> </ul>			
Diboron trioxide	1303-86-2	215-125-8	>0.1%
Melamine	108-78-1	203-615-4	>0.1%
<ul style="list-style-type: none"> <li>➤ In pressure transducer of all products of the <u>series 0606-X</u></li> </ul>			

Furthermore, according to supplier information, our products do not contain radioactive material, are asbestos-free and do not contain ozone depleting substances (ODS).

According to Article 31 - of the REACH Regulation EC 1907/2006, we are not a supplier of substances or mixtures of hazardous substances and therefore do not prepare Safety Data Sheets SDS or MSDS.

**GHS / CLP-Regulation (EG) Nr. 1272/2008 of 20th January 2009  
(Addendum (EC) 2023/1434 of 25th March 2023)**

SUCO is not subject to the GHS / CLP regulation (attachment of labeling pictograms and packaging rules, and labeling of chemicals).

We are constantly monitoring the development of all policies and regulations mentioned here in this statement and will inform our customers if the above changes.

If you have any further questions, please contact us by e-mail – [material-compliance@suco.de](mailto:material-compliance@suco.de)

Yours sincerely
